Re: I-KOTA, inc

To Whom it May Concern,

I have had the opportunity to work with I-KOTA with my current employer once and with my former employer several times. Whether it is in the capacity as the General Contractor or subcontractor/partner on work that required small business participation, I-KOTA always brings a high level of professionalism to the project.

Riley and Kevin's approach of being upfront and honest with their customers and their subcontractors is carried through the entire organization. I look forward to working with I-KOTA on future projects.

If you have any questions or would like additional information, please do not hesitate to contact me at 30-513-0115.

William Trainor

Senior Project Manager
